Sorry - sent before I finished the thought! Just meant that if we pursue one, the ERO trans team will have much to offer on lessons learned, and that DWR should not necessarily look at the HSR example as latest and greatest.

FYI, HSR version has led to some issues needing clarification recently, so if a NEPA-404-like agreement

Subject: BDCP

The State (DWR) is somewhat interested in a NEPA-404 MOU for the BDCP. I've shared the High Speed Rail MOU with them. I plan to speak with Mike Jewell soon. (State has already spoken with Corps-HQ.)

I think its needed and appropriate. Any thoughts?
